

APPENDIX B

Community education and prevention training should be implemented and orientated around the following three (3) excellent wildfire prevention programs:

- 1) Create and maintain Defensible Space around structures (Appendix A)
- 2) Create and maintain Survivable Space at each residence (Appendix A)
- 3) FIREWISE – A Community-wide Outreach Program (Appendix A)
- 4) REDZONE - A computerized program to increase dispatch efficiency (Appendix C)
- 5) New and unidentified programs to help communities

Training Program

The proposed ten (10) year training program would provide the opportunity for entry-level volunteers to become “Task Force Leaders” and achieve the organizational level of “Assistant Chief” thereby, maintaining leadership in the primary chief’s absence, and maintaining an effective training cadre.
